**DELTA HIGH SCHOOL  
STUDENT AUTOMOBILE REGISTRATION  
2018-2019**

Driving an automobile to school is a privilege not a right.

Students driving any vehicle to school must complete a registration form signed by himself/herself and his/her parent or guardian. All student drivers are governed by the following guidelines:

1. Operate the vehicle safely and in a courteous manner at all times.
2. Park the vehicle in the assigned parking area immediately upon arrival at school. Students should never park in faculty areas. Students may only park in handicapped spaces with the permission of school administrators.
3. Do not go to the vehicle at any time during the school day (this includes lunch hour). Once the vehicle is parked in the morning, it is to remain in the lot for the entire school day. If a student has to leave school by vehicle, he/she must first obtain permission in the office and sign out.
4. Traffic violations, reckless driving of any type or violation of any of the above points could result in necessity to contact the civil authorities and/or suspension of a student's privilege to drive to school and/or suspension or expulsion from school.
5. Do not park in the *NO PARKING* or faculty parking areas.
6. All vehicles parked in the Delta High School parking lot are subject to search by school officials based upon reasonable suspicion. By signing this form and accepting a Delta High School parking pass, you agree that you will permit school officials to search your vehicle with reasonable suspicion. Delta High School reserves the right to use drug and explosive sniffing dogs to search the parking lot. A "hit" by a police dog constitutes reasonable suspicion for a search.
7. Students are not permitted to ride motorcycles, mopeds, ATV's, or other such equipment to school.
8. Replacement tags will only be available after the payment of a \$5.00 fee.

Driver/Extra Curricular Drug and Alcohol Testing  
Student Release Form  
2018 – 2019

STUDENT NAME \_\_\_\_\_ DATE \_\_\_\_\_

It is understood through the Delaware Community School Corporation School Board Policy and through the Delta High School Student Handbook that any student driver and any participant in extra-curricular activities must submit to random drug testing. The school is encouraged by the Witham Health Services and Mid-West Toxicology Services to have parental permission waivers signed by the parents of each eligible student before drug testing occurs.

This release is valid for the 2018–2019 school year. Once granted, the permission is valid for the entire school year.

Furthermore, I have been informed and fully understand that by signing this authorization, I agree to forever release and hold harmless Mid-West Toxicology Services, its officers, employees, and agents from any liability, claims, or other recourse as a result of the laboratory test and the release of the laboratory testing results.

My child has my permission to be drug tested to be eligible to participate in the extra-curricular program at Delta High School and /or drive to Delta High School, and Mid-West Toxicology Services and Delta High School are authorized to perform the test on my child.
